Visits to Community Care Homes

It has come to our attention that Lanterman families may be interested in a provider of services for their Lanterman family member who does not presently have a 962/853/SRH home operating in the southern California area. Also, it is our understanding that service providers that are operating homes for the Agnews movers in the Bay area will also be operating homes in southern California for the Lanterman movers. Last year, Lanterman families traveled to San Jose to visit 962 and SRH homes operated by Elwyn. Now, Mentor a service provider who currently serves Agnews movers will soon be operating 962/853 homes in southern California. Families interested in traveling to San Jose to visit an Agnews movers home or any other southern/northern California service provider home, please contact the PCC office at ldcpcc@gmail.com, or at 909-444-7572. We will help connect you with the service provider in the area you are interested in. We may also be able to coordinate a visit with you and other Lanterman family members.
